RISKS:

- Retrieving Level 3 data can expose merchants to data breaches.
- Increases risk of fraud and compliance issues.
- Poor security can lead to financial loss and reputational damage.

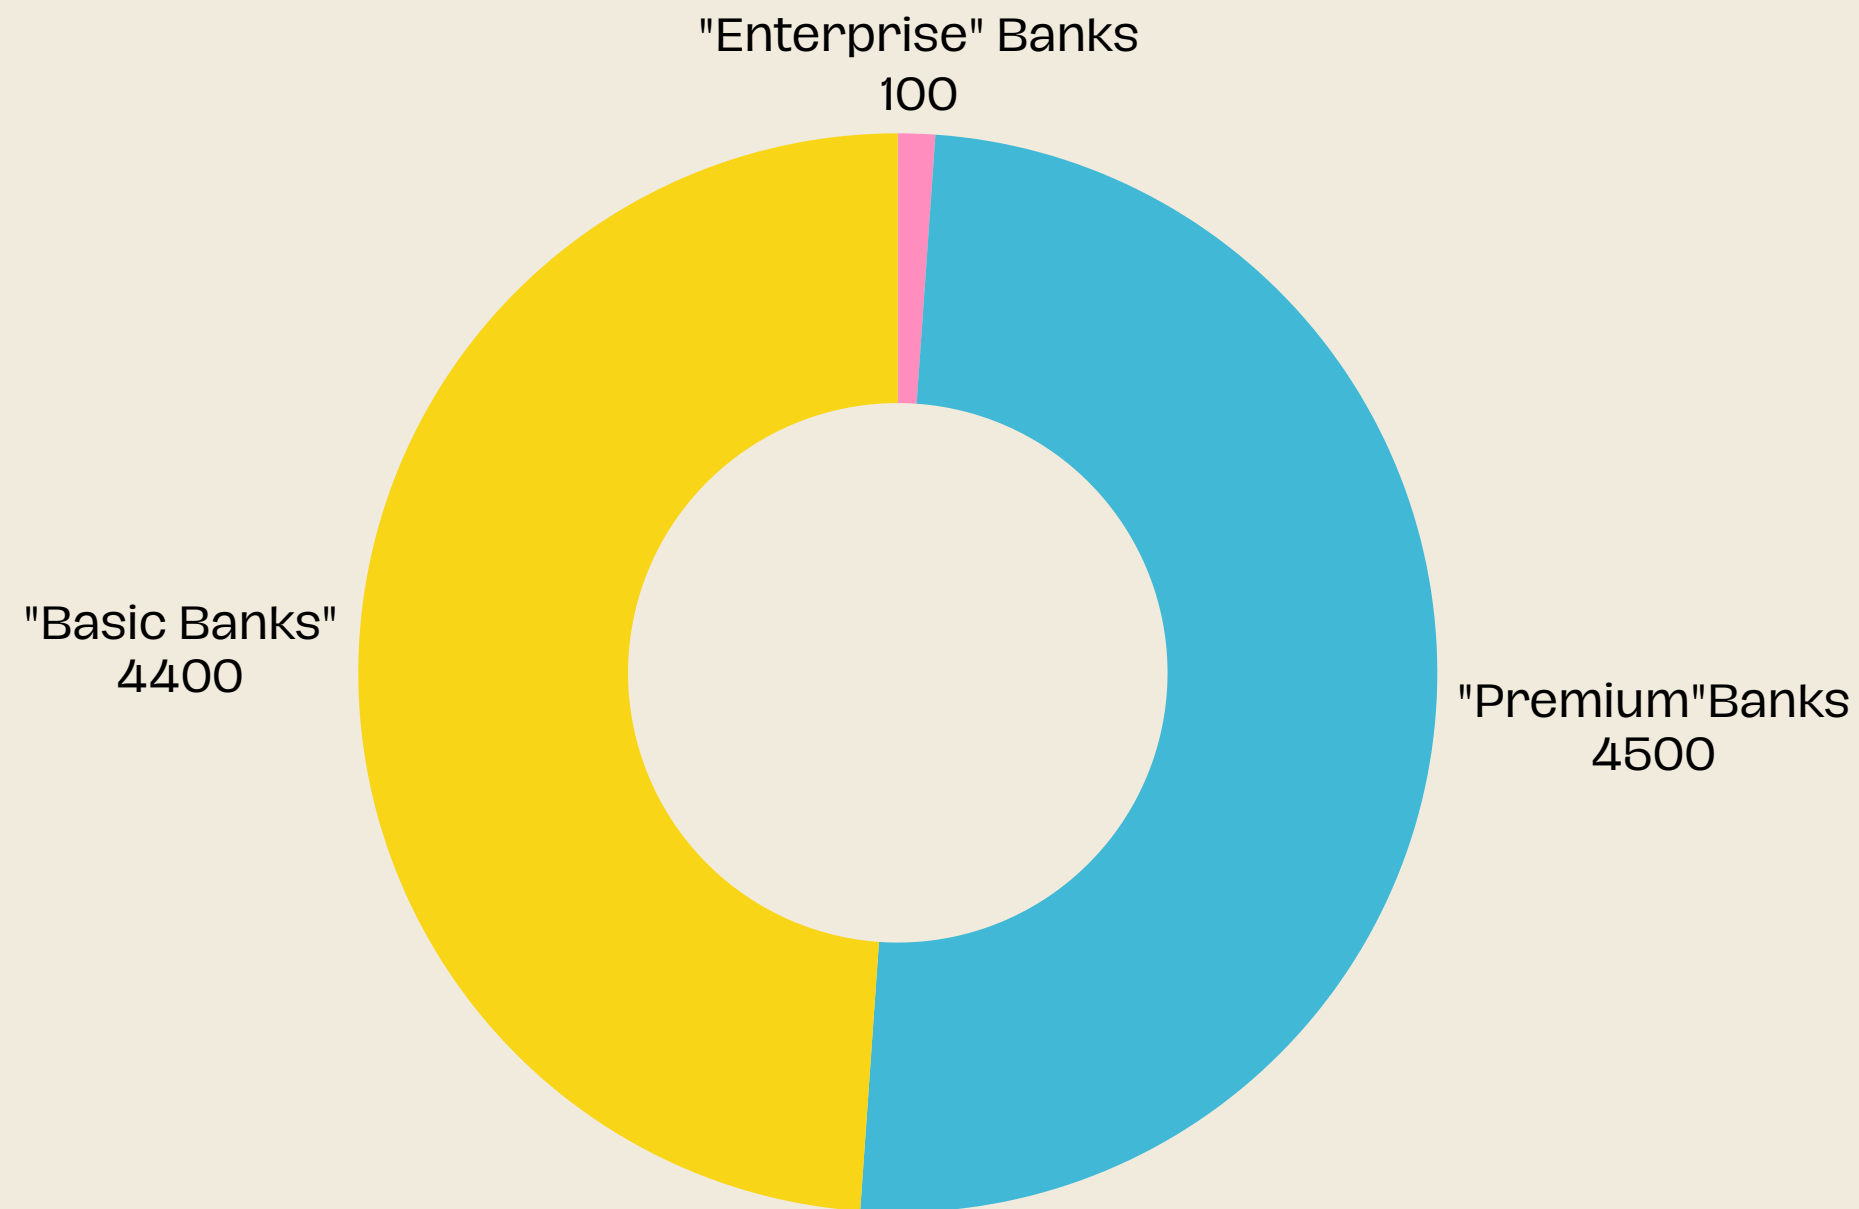

CHALLENGES:

- Complex data extraction from varied receipt formats; requires advanced processing technology.
- Ensuring data accuracy and compliance with financial regulations poses difficulties.

ADDRESSABLE MARKET

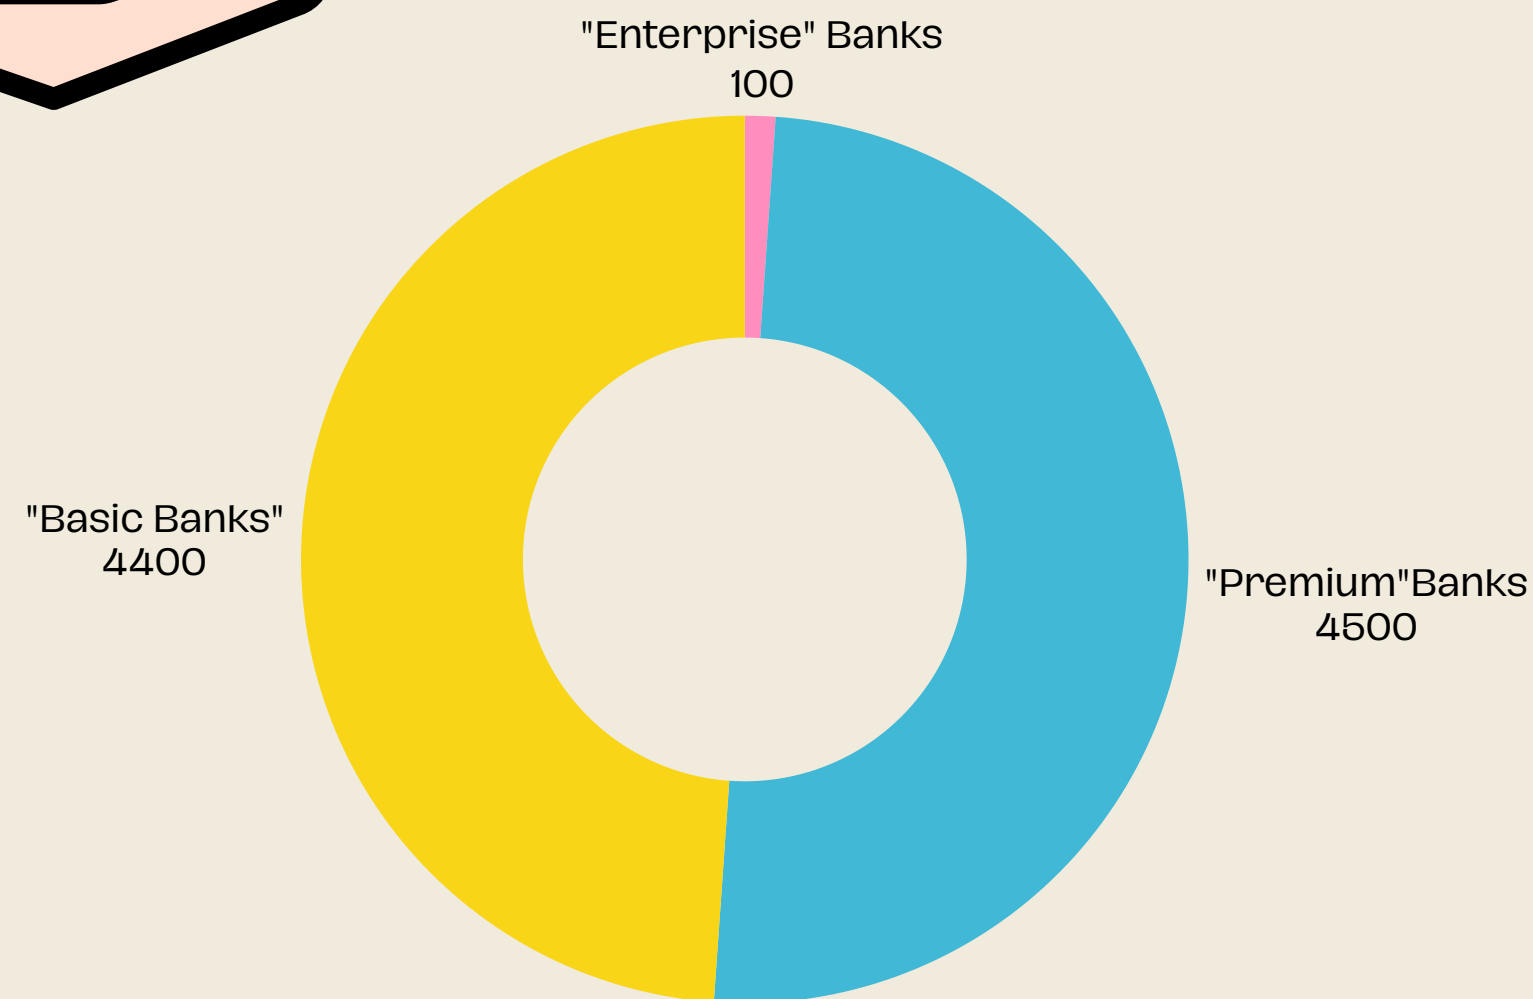

~9,000 Total Banks in U.S.

~100 Major Merchants (i.e. Walmart, Target, Amazon, etc.)
